

16 July – 15 October

# My Health Record Community Information Sessions

My Health Record is an online summary of your key health information. More than 1 in 5 Australians already have one. Over time, My Health Record will bring together health information such as medical conditions, medicines, allergies and test results in one place.

The Australian Government has legislated that a My Health Record will be created for all Medicare and Department of Veterans' Affairs card holders in Australia by the end of 2018, unless they choose not to have one.

There will be a three month period commencing 16 July 2018 when you can inform the Government of your choice to opt out of the My Health record system.

You are invited to attend a My Health Record Community Information Session to learn more about My Health Record and its benefits, or how to inform the government if you decide you don't want a My Health Record.

## Event Information

Please join us for an informal information session. Our staff will be on hand talk to you about the benefits of having a My Health Record and answer any questions you may have.

## Further Information

For more information about My Health Record visit [www.myhealthrecord.gov.au](http://www.myhealthrecord.gov.au)
