My Health Record system: benefits for you and your residents

For Residential Aged Care Managers and Clinical Coordinators

Eastern Melbourne PHN (EMPHN) invites you to an interactive session focusing on the expansion of the national My Health Record system.

This workshop will include a broad overview of the My Health Record system and cover:

- Privacy, security and consent obligations
- Key clinical information you can access
- Communicating the benefits of the My Health Record

About the My Health Record expansion program

The Australian Government has legislated that a My Health Record will be created for all Medicare and Department of Veterans' Affairs card holders in Australia by the end of 2018, unless they choose not to have one. There will be a three month opt-out period commencing 16 July 2018, when consumers can inform the Government of their choice to opt out of the My Health record system.

This workshop will provide you with the essential information about My Health Record and what you need to do to prepare for the opt-out participation.
