

Too many patients with COVID, asthma, flu?

GPRCs are ready for your patients

New GP Respiratory Clinics (GPRCs) provide face-to-face assessment and testing, and immediate support for issues such as:

- Asthma
- COPD
- Pneumonia
- Shortness of breath
- COVID - including COVID positive patients (book ahead).
- Flu/cold symptoms - runny nose, sore throat, cough or fever.

Services are available for anyone with respiratory symptoms, including children, with or without a Medicare card, at no cost.

Clinics are open seven days a week and after hours, in many locations across greater Melbourne.
