

My Health Record: informing your patients

For practice managers and practice nurses

The Australian Government has legislated that a My Health Record will be created for all Medicare and Department of Veterans' Affairs card holders in Australia by the end of 2018, unless they choose not to have one.

There will be a three-month period commencing 16 July 2018 when consumers can inform the Government of their choice to opt out of the My Health Record system.

Eastern Melbourne Primary Health Network (EMPHN) invites you to a workshop where you will have the opportunity to learn how you can best support your patients in understanding My Health Record and the choice available to them.

This session will include a brief overview of the My Health Record system; discuss the GP toolkits distributed by the Australian Digital Health Agency and an interactive Q & A session.

This workshop will include:

- an overview of the My Health Record system
- key messages to assist you in communicating to patients
- overview of the GP toolkit distributed by the Australian Digital Health Agency
- Q&A
