

# world diabetes day

14 November

## WEBINAR

### Talking about eye health matters

Find out more about how diabetes can affect the eyes and your role as a GP in helping your patients look after their eye health.

This webinar will focus on clinical information and patient pathways - focusing on the eye health risks for people with diabetes, and how you can help. Speakers will speak to key themes, including Diabetic Eye Diseases, KeepSight and the patient journey.

**Monday 14 November 2022**

6.30 pm – 7.30 pm
