

# Harm Minimisation Forum

## A PROFESSIONAL APPROACH

### Overview

As healthcare providers, we are responsible for patients' physical and psychological wellbeing. Do healthcare providers subconsciously harbour preconceived prejudices that prevent patients from receiving the help they need?

Come along to PSA's Harm Minimisation Forum to discover if pre-existing biases exist and how they impact patient care. Learn about systemic stigma; hear from patients and experts on how to combat these biases to better improve patient outcome.

### Guest Speakers

- Sione Crawford – CEO Harm Reduction Victoria
- Sejla Stammers – Information Officer, Alcohol and Drug Foundation
