An integrated health
care system

Working in partnerships to enable an integrated service system

(1)

Leveraging digital health, data and technology

TRANSFORMATIVE STRATEGIES

- support and encourage primary care to adopt team-based care that is person-centred
- build on practice-based evidence and practice-based innovation

OUTCOMES

- primary care providers deliver person-centred integrated services
- primary care providers deliver timely, high quality and safe health care

TRANSFORMATIVE STRATEGY

 develop commissioning and system change strategies that encourage integration across the boundaries of primary, community and acute services

OUTCOMES

- joint planning and co-ordinated investment results in better integrated, person-centred, service delivery.
- service system improvement occurs through co-design processes that are person-centred, clinician-led and provider informed
- strategic commissioning delivers better outcomes for people and an improved service system

TRANSFORMATIVE STRATEGY OUTCOMES

• enable health information continuity between providers

- health data, economic analysis, planning and evaluation drives impactful service and system development
- improved use of data and technology to support providers in delivering high quality co-ordinated care, and people in managing their own health
