

# Automatic Login to HealthPathways Melbourne:

## How to bookmark the custom link

To enable your GPs to access the HealthPathways Melbourne website without a username and password, they will need to use the custom link provided for your practice (refer to the email you received confirming that automatic login set up is complete). This link has the HealthPathways Melbourne website address plus the **special set of numbers (called an “authentication key”)** assigned to your practice. This link looks like this:

[https://melbourne.healthpathways.org.au/LoginFiles/Landing.aspx?from=83e5aefae3bf41c69096addca97\[REDACTED\]&page=13454.htm](https://melbourne.healthpathways.org.au/LoginFiles/Landing.aspx?from=83e5aefae3bf41c69096addca97[REDACTED]&page=13454.htm)

Once you open this link the special set of numbers (authentication key) will disappear from the address bar. So you will need to follow these steps to bookmark this custom link:

1. Open Google Chrome

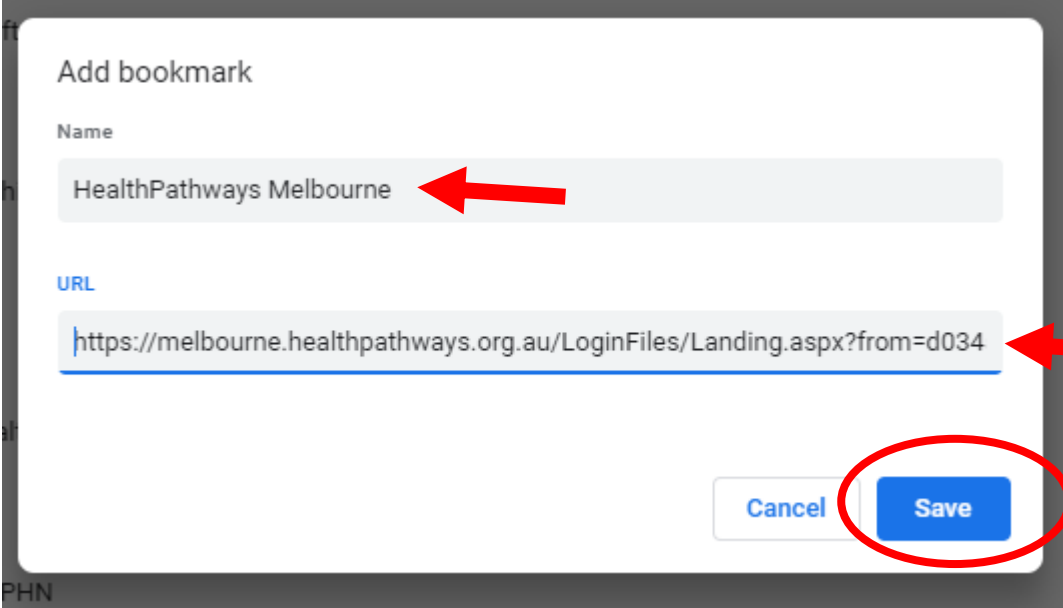

2. CTRL-SHIFT-B to open your Bookmarks Bar
3. CTRL-SHIFT-O to open the Bookmarks Manager
4. Once you're in Bookmarks Manager, LEFT-CLICK on the 3 dots on the top right corner of the page.

5. Click “ADD NEW BOOKMARK”

6. Set-up your bookmark:
  - a. Under Name, enter HealthPathways Melbourne
  - b. Under URL, paste the custom link for your practice
  - c. SAVE

**Add bookmark**

Name  
HealthPathways Melbourne

URL  
<https://melbourne.healthpathways.org.au/LoginFiles/Landing.aspx?from=d034>

Cancel Save

**COMPLETE!** You should now see HealthPathways Melbourne on your Bookmarks Bar and when you hover your mouse on it, you can check that you've added the custom link:
