Eastern Melbourne PHN (EMPHN) is inviting people with lived experience of mental ill-health to attend a half-day forum to launch EMPHN's Lived Experience Project.

Consumers, carers, peer workers, and community members with lived experience will have an opportunity to:

- Learn about the focus of the project
- Hear from project partner Redpanther
- Network with other people in the region

We're interested in how people with a lived experience can have a greater impact on mental health reforms and service integration. We want to encourage collaboration, across our region, among consumer and carer groups and peer workers. We know we can do this better when we're working together.
