

Breast Cancer Update: Screening to Survivorship

For General Practitioners and Practice Nurses

Event Overview

- Screening: what needs urgent referral to specialists?
- Treatment decisions and impacts on survivorship
- Surveillance post-treatment

Learning Objectives

1. Identification of screening results requiring urgent referral to breast specialists.
2. Translation of treatment decisions to the impact on cancer survivorship and post-treatment care in primary care.
3. Discuss survivorship issues and understand referral pathways to enable rapid re-entry to specialist care.
4. Describe and undertake appropriate follow-up management of a patient that has completed active treatment for breast cancer.

Speakers:

Dr Frances Barnett – Acting Director Medical Oncology, Northern Health

Mr Michael Issac – Breast Surgeon, Northern Health

Dr Michael Guiney – Radiation Oncologist, Epping Radiation Oncology Centre

Dr Emilia Greculescu – General Practitioner, Wallan Medical Centre

Ms Cheryl Murray – Breast Care Nurse, Northern Health

*Facilitated by Emeritus Assoc. Prof Hamish Ewing –
Ex-chair Northern Health Breast Group*
