

Northern Health's 2nd Breast Cancer Update: Managing Late Effects and Endocrine Therapy

For General Practitioners and Practice Nurses

Learning Objectives

1. Describe and undertake appropriate follow-up management of a patient that encounters late effects as a result of radiotherapy
2. Demonstrate the appropriate management for common late effects of chemotherapy
3. Develop knowledge and skills to assist in the management of endocrine therapy toxicities
4. Discuss survivorship issues, particularly as they relate to patients with breast cancer, and understand referral pathways to enable rapid re-entry into specialist care

Speakers:

Assoc Prof Shane White – Medical Oncologist, Northern Health
Dr Michael Guiney – Radiation Oncologist, Epping Radiation Oncology Centre
Dr Emilia Greculescu – General Practitioner, Wallan Medical Centre
Ms Cheryl Murray – Breast Care Nurse, Northern Health
Consumer Representative from Northern Health

Facilitated by Chair of Northern Health Breast Unit: Ms Wanda Stelmach
