

Contraception and STI update for Health Professionals

An overview of GP training requirements for contraception and STI update

Family Planning Victoria Presenters:

Dr Kathy McNamee, Medical Director and co-author of Contraception: an Australian clinical practice handbook. Kathy is a member of RACGP with a special interest in reproductive and sexual health, holds a Diploma in Venereology, Graduate Diploma in Biological Epidemiology and a Masters of Epidemiology.

Dr Suzanne Pearson, Senior Medical Educator. Suzanne is also a member of RACGP with a special interest in reproductive and sexual health and holds a Graduate Certificate in Clinical Education.

Angela Steele, Manager, Clinical Community Education. Ange is a registered nurse and midwife and has a Masters in Public Health with a special interest in young people's sexual and reproductive health.

Key Outcomes

1. Use guidelines to offer appropriate STI screening
2. Use guidelines to assess, interpret results and manage common STIs
3. Utilise the MEC system for safe prescribing of contraceptives (safety)
4. Identify the benefits of long acting reversible contraception (LARC) for women
