

E-requesting update for general practitioners

This webinar is designed for GPs to provide an update on e-requesting and assist your general practice in understanding how to get started.

Presenters

Marwa Osman

Provider Adoption Lead – Partnerships, Education and Clinical Use – Digital Programs and Engagement. Australian Digital Health Agency (ADHA)

Event details

Since early 2020, there has been a significant increase in My Health Record interaction and uploading of reports by pathology providers.

In Victoria, Australian Clinical Labs (ACL), Melbourne Pathology and Dorevitch Pathology are all now connected and uploading pathology results to My Health Record.

Learning outcomes

- what is e-requesting?
- who is connected and uploading Pathology/DI reports to My Health Record?
- how do you set-up e-requesting?
- benefits of e-requesting.
