**M: 0434 608 544**

#### **Collaborative Care Planning Workshop**

This workshop aims to explore our collaborative relationships in a cross sectoral environment.

Be inspired by the local EMHSCA Shared Care protocol which assists in collaboration for shared care planning, engage in collaborative care planning in teams with a consumer, understand the benefits of information sharing, learn the positive impact of inclusive practice and discuss the challenges with a solution focus.

#### **Navigating Mental Health, AOD and Psychosocial Supports Forum**

The Mental Health supports are evolving and psychosocial supports are in the spotlight as the NDIS is now rolled out. People are finding the changing landscape challenging to navigate.

This forum aims to provide up to date information about the existing and emerging range of Mental Health, AOD and psychosocial supports available, including NDIS. A key focus will be on how to navigate the sector and how to collaborate in this developing environment. A marketplace of providers will be on site to share their information.

#### **Professionals navigating the east**

This is a full day of multi-sector service navigation for all interested staff of health and community support services. Sectoral overviews, a lunchtime Market place and break-out workshops are provided. This event is arranged in collaboration with the Eastern Regional Coordinators. An expanded program will allow for a broad range of service showcases and sector overviews.

#### **Mental Health & Co-occurring Issues Explored**

This workshop is intended to provide participants with information and skills to assist them in their work with the complexity of collaborative care planning. It is hoped that participants will gain an improved understanding of how to approach and work with certain disorders and specific cohorts in relation to co-occurring mental health issues, thus enhancing their confidence and service delivery.

NOTE: All events are intended to target workers from Mental Health (Clinical and non-clinical), AOD, Family Services, Homelessness/Housing, Community Health, Primary care, NDIS providers, Centrelink, Eastern Community Legal Centre, Disability Employment, DHHS, Local council, etc...

Cross sectoral conversations are encouraged.

The common thread is provision of services to people with mental health and co-occurring issues.

All events are **free of charge** to participants.
