Collaborative Care Planning Workshop series

This 2 part workshop series will explore the logistics of care coordination in a cross-sectoral online environment. You will have opportunity to meet and work with a range of health and community service providers.

You will learn about shared care practices, work with a person who has a lived experience of mental health recovery, hear from a carer about the challenges carers face, consider key aspects of information sharing and managing safety issues, and discuss the challenges with a focus on solutions.

Professionals Navigating the East with Carers

Carers often feel left out of the care and are often ill-equipped to navigate to the right supports for their loved ones. As professionals, we need to understand what kind of supports are available for carers and how we can best help them as they hold the majority of responsibility for the people they are caring for. This forum aims to help you do this better.

November 2021

Mental Ill-Health & Co-occurring Issues Explored Workshop series*

Date: Thursday 11th & 18th November: 9am - 12.30pm

Mental Health & Co-occurring Issues Explored

This workshop is intended to provide participants with information and skills to assist them in their work with the complexity of collaborative care planning. A series of topical mini-workshops is provided. It is hoped that participants will gain an improved understanding of how to approach and work with certain disorders and specific cohorts in relation to co-occurring mental health issues, thus enhancing their confidence and service delivery.
