

23 October 2018

Co-design and development of a new AOD service model for EMPHN

Co-design workshop 2b

EMPHN is undertaking a co-design process to develop a new AOD service model that will be commissioned by mid-2019. We invite participation and contribution into service model design and development by the AOD sectors, and those from intersecting service sectors. The co-design process is led by 360Edge.

Event details

A key element of the co-design process is to hold face-to-face workshops with key stakeholders.

Co-design workshops 1b and 2b are open to interested stakeholders

This flyer is for the second workshop (2b) which will focus on finalising the draft model of care.

EMPHN and 360Edge greatly value your participation in this important activity.

About 360Edge

360Edge has been commissioned by EMPHN to lead the co-design process and develop the new AOD service model.

360Edge are Australia's leading expert consultants in alcohol and other drug responses, combining more than 25 years of academic research with hands-on clinical experience to provide solutions that are both evidence based and practical to implement.

360Edge understand how to make it work in the real world.
