EXPRESSION OF INTEREST

Managing Alcohol and Other Drug Presentations in General Practice

Area 4 Pharmacotherapy Network and Mediclinic Clayton are offering an exciting professional development opportunity for Practice Managers in Southern and Eastern Metropolitan Melbourne to explore opioid replacement therapy as a viable and sustainable service in their practice.

Presenter

Anastasia Dimitriou – 2014 AAPM Practice Manager of the Year will present a strategic, efficient, financially viable business model for ORT in General Practice that will support GPs to deliver vital services to their current patients without disrupting waiting rooms or patient flow.

Key message

This innovative, effective Practice Manager training is available to any practice in the South Eastern Melbourne Metropolitan Area and will be provided by Anastasia Dimitriou.

The session will cover a wide range of issues including:

- What is Opioid Replacement Therapy?
- What are the benefits?
- Management of addiction using a chronic disease framework
- Administration issues; appointment scheduling managing permits
- Building a treatment team; partnerships, collaborations, complimentary services.
