

Electronic Prescribing Update

Webinar for GPs and practice managers

Eastern Melbourne Primary Health Network (EMPHN) invites GPs and practice managers to an interactive session on electronic prescribing.

Electronic prescribing will improve medicines safety and provide new options and convenience for patients.

Learning outcomes

This webinar is designed to provide an overview of electronic prescribing (EP) and what general practices will require to generate electronic prescriptions.

- Two models of electronic prescribing
- What features will be available in the short term
- Who can participate in EP
- How to prepare your general practice for EP
- Q & A

Presenters

Dr Laila Tabassum - Australian Digital Health Agency - Provider Adoption Lead, Partnerships and clinical use.

Marwa Osman - Australian Digital Health Agency - Provider Adoption Lead, Partnerships and clinical use.
