

Tuesday 27 June 2017

Co-designing a mental health stepped model of care - part 2

Stakeholder forum for Eligible Organisations providing Mental Health Nursing Services

Event details

Eastern Melbourne PHN (EMPHN) invites you to our second Co-designing a Mental Health Stepped Model of Care forum for representatives of eligible organisations currently contracted to deliver MH nursing services at EMPHN.

This forum will provide an update on Stepped Model of Care and how this is aligned with the vision of system reform articulated in Contributing Lives, Thriving Communities - Review of Mental Health Programmes and Services.

The forum will also explore responsive care for people experiencing and recovering from mental health issues as well as the impacts of the Stepped Model of Care on your current business practices and working arrangements.
