

Tuesday 16 May, 2017

Multidisciplinary management of Breast Cancer & the Optimal Care Pathway For GPs and nurses

- The optimal cancer care pathway is intended to guide the delivery of consistent, safe, high-quality and evidence-based care for people with breast cancer
- The pathway describes the critical steps in a patient's cancer journey, from screening and diagnosis to treatment and survivorship
- The Survivorship Model of Care and how to embed into routine follow up care will be discussed

Presented by the Austin Health Breast Unit:

- **Overview of Optimal Care Pathways:** NEMICS representative
- **Case study introduced:**
The Austin Health Multidisciplinary Breast team including General Practitioner, Breast Surgeon, Oncologist and Breast Care Nurse will outline how their role fits within the Optimal Care Pathway patient journey.
- **Multidisciplinary team panel discussion:**
Questions from the audience.
