

22 August 2018

Mental Health Stepped Care Model and Clinical Staging

A professional development session for primary health service providers

Event overview

Eastern Melbourne PHN (EMPHN) invites you to this one day professional development session for primary health service providers to explore clinical staging theories and evidence that are underpinning the development of EMPHN's Mental Health Stepped Care Model.

Dr Shane Cross from the Brain and Mind Centre of the University of Sydney will present on the theory and evidence base behind clinical staging, and link these to EMPHN's Mental Health Stepped Care.

This workshop will provide an opportunity to:

- build on previous engagement with primary health service providers on EMPHN's Mental Health Stepped Care Model
- understand mental health clinical staging theory and evidence
- understand links between clinical staging and mental health support options, including EMPHN's Mental Health Stepped Care Model
- learn how the Model has been operationalised in the North East and Outer East.

For more information about EMPHN's Mental Health Stepped Care Model, visit our [website](#).

This session is for primary health service providers in: general practice, alcohol and other drug, community mental health, clinical mental health, PIR, NDIS, AOD/MH peer work, mental health stepped care, mental health nursing services, and allied health.
