

17 August 2017

Diabetes Foundations

For Practice Nurses and GPs

Diabetes Foundations provides a strong grounding in essential information about diabetes including pathophysiology, prevention of complications and an overview of management of Type 1 and Type 2 diabetes.

Event overview

This interactive program is delivered by expert diabetes practitioners from Diabetes Victoria and is suitable for registered nurses, enrolled nurses and GPs working in General Practice in the Eastern Melbourne PHN catchment.

Topics covered

- What is diabetes (including type 1 and type 2)
- Overview of management strategies (including medication basic)
- Blood glucose monitoring
- Hypoglycaemia
- Complications (prevention)
- Psychological issues and mental health
- Basic nutrition concepts
