

8 August 2017

Vaccine and cold chain management

For practice nurses and staff

This session will cover vaccine and cold chain management requirements for general practice based on the National Vaccine Storage Guidelines, 'Strive for 5' (2nd edition). The session will also include the recent changes in the cold chain management advice from the Department of Health & Human Services – Immunisation program.

Event Overview

Presented by: Lidia Najbar
GP Engagement Officer, Eastern Melbourne PHN

Learning outcomes

- Apply the principles and recognise the importance of cold chain management
- Implement processes required for effective cold chain management
- Manage a cold chain breach/power failure and implement strategies and processes required to minimise the impact on stored vaccines
- Undertake processes required in the event of a cold chain breach, including reporting and documentation
