

16 and 17 July 2019

# Quality improvement in general practice

## Data quality workshop

This training workshop for practice managers and practice nurses will provide participants strategies for implementing quality improvement within their general practice.

### Facilitated by

**Katrina Otto**  
Principal & Owner of  
Train IT Medical

Train IT Medical's Katrina Otto will facilitate an interactive data quality session to assist participants to develop a data quality improvement plan, addressing a priority area relevant to their general practice needs.

This workshop will incorporate case studies, scenario-based training and individual and group activities to consolidate learnings.

### Learning outcomes

Participants will be provided with practical strategies on how to:

- recognise and understand the importance of data quality in their practice
- learn to interpret practice data
- use data to identify and track areas for improvement
- develop a data quality plan and practical steps for their practice.
