National Cervical Screening Program (NCSP) Update

Changes effective 1 December, 2017 for GPs and Nurses

This timely workshop will provide information on the upcoming NCSP changes and how to implement these changes within your practice.

Presenter

Dr Stella Heley, Sexual Health Physician and Director of Education and Liaison Services, Victorian Cytology Service

Learning Outcomes

- Describe the changes to cervical screening including testing, sample collection, storage and candidate eligibility for screening
- Outline how women will transition from Pap smear screening to the new NCSP
- Explain HPV and liquid based cytology test results to patients
- Manage asymptomatic & symptomatic women, following a reported result, according to the clinical pathways in the 2016 guidelines

All registrations must be received by Thursday 28 September, 2017.

To register click on the 'Register now' button or visit www.emphn.org.au/events

Due to the high demand of this training, priority will be given to GPs and nurses working in the Eastern Melbourne PHN catchment. To check which catchment you work in, enter your work address into the [PHN locator](#)
