

Uveitis and Hearing Loss

The Royal Victorian Eye and Ear Hospital in partnership with North Western Melbourne PHN is proud to present a practical update designed to assist GPs to become more confident and competent in their diagnosis and management of inflammatory red eye, hearing loss and tinnitus.

Key session objectives

- assessment of the inflammatory red eye
- diagnosis and management of uveitis, scleritis and episcleritis and their associated conditions
- assessment and management of hearing loss in children and adults (including hearing aids and Cochlear Implants)
- a brief tinnitus update.

Speakers:

A/Prof Lyndell Lim, Consultant Ophthalmologist
