

# Hepatitis B s100 Prescriber Course Parkville

**Advanced level training that will enable GPs to effectively diagnose, manage and treat chronic hepatitis B in the primary care setting. Successful completion of the training and assessment will accredit community-based medical practitioners to prescribe s100 highly specialised drugs for the treatment of chronic hepatitis B.**

## Learning Outcomes

- Screen at risk patients appropriately
- Plan antiviral treatment for HBV infection
- Utilise treatment protocols for monitoring patients' responses to HBV antiviral therapy
- Implement shared care between primary and tertiary settings including appropriate referrals
- Develop management plans for patients requiring ongoing monitoring

***Travel grants may be provided to GPs in rural and remote Victoria to attend the course and become a HBV s100 prescriber. For more information please contact a member of the VHHITAL team.***

The course will be facilitated by  
- Assoc. Prof. Ben Cowie - Infectious Diseases Physician and Epidemiologist, The Doherty Institute, Victorian Department of Health and Human Services, and University of Melbourne  
- Dr. Matt Penn - s100 HIV and HBV prescriber, The Centre Clinic, PRONTO and North Richmond Community Health
