

13 December 2017

GP Palliative Approach - Workshop

The aim of the GP Palliative Care Workshop is to develop a greater understanding of the palliative approach to care and its application in general practice.

The interactive workshop will be facilitated by clinicians with extensive palliative care experience.

Overview

The workshop will cover:

- Key strategies for identifying individuals in the general practice setting who may be approaching the end of life
- Strategies for communicating with patients and families about prognosis and goals and preferences for care
- The principles of end of life care, including assessment and management of pain and other common symptoms
- Resources to support general practitioners to provide end of life care
- Self-care strategies to effectively manage the personal issues related to working in this field.

Presenter

A/Prof Leeroy William, Palliative Medicine Specialist, Monash Health and Eastern Health

This workshop is the result of a collaboration between Eastern Melbourne PHN and the Program of Experience in the Palliative Approach (PEPA). Funding has been provided by the Australian Government Department of Health. PEPA has been providing a range of funded clinical education activities, including tailored workshops throughout Australia for over 14 years.
