

Too many patients with respiratory symptoms?

GPRCs are ready for your patients

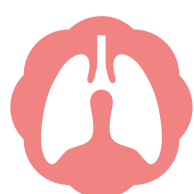

New GP Respiratory Clinics (GPRCs) provide face-to-face assessment and testing (including for COVID-19), and immediate support for issues such as:

- Asthma
- COPD
- Pneumonia
- Influenza
- Shortness of breath
- COVID-like symptoms

Services are available for anyone with respiratory symptoms, including children, with or without a Medicare-card, at no cost.

Clinics are open seven days a week and after hours, in many locations across greater Melbourne.

For locations and more information visit
