

HEPATITIS C MANAGEMENT IN PRIMARY CARE TUES 11 SEP 6PM-7.30PM NEXUS PRIMARY HEALTH WALLAN

An invitation to primary health care professionals in Wallan and surrounding areas to attend an introductory level education session on hepatitis C

This education session, which coincides with the opening of the new Austin Hep C Outreach Clinic in Wallan will present topics including at risk populations, modes of transmission, and management, including: risk assessment, screening, testing, diagnosis, and suitability and preparation for treatment.

Learning Outcomes

Dr Josephine Grace, gastroenterologist at the Austin Hospital, and clinical lead with the Hep C Treatment Service, will present on topics of relevance to GPs and other primary health-care professionals interested in enhancing their knowledge of hepatitis C.

1. Learn who to screen, how to screen, and how to assess for the presence of cirrhosis in a primary care setting
2. Describe new Hep C treatment guidelines, pathways to referral and how to prescribe in conjunction with a specialist

Refreshments provided by Gilead

RSVP and dietary requirements by 4th Sep to Susan Campfield, Hep C Outreach Nurse, at: Livernurses@austin.org.au
