

# HEPATITIS C IN DRUG AND ALCOHOL SETTINGS

This course is designed to strengthen the capacity of clinical staff working in drug and alcohol settings, or working with people who inject drugs, to effectively test for, treat and manage hepatitis C. This highly interactive course is available for GPs and other clinicians able to prescribe. The online learning and face-face workshop will give you the skills to confidently prescribe the new DAAs.

## Learning Outcomes:

By the end of this session you will be able to:

- Describe the risk factors for HCV infection enabling effective practice screening processes and prevention education
- Demonstrate competence interpreting clinical and other relevant information to provide effective care of people living with HCV infection
- Demonstrate competence in liver disease assessment
- Demonstrate understanding of DAA therapy for the treatment of HCV and competence in selecting and prescribing appropriate therapy
- Monitor patients on treatment and post-treatment appropriately

Sunday, 30 April 2017  
8.30am - 5.00pm

RSVP by: 26 April 2017  
Bookings are essential.

## Venue

Quest Dandenong Central  
2-10 Walker Street  
Dandenong VIC
