### Imaging and treatment for common urology conditions

This seminar will focus on common urology conditions and the latest advancements in prostate MRI and stone imaging with presentations and interactive discussion from North Eastern Urologists and an I-MED Radiologist.

Join us for an informative evening with experts in the field of Urology conditions

**6.00pm**

Registration and welcome

**6.15pm**

Presentation and Cases

Dr Travers Anderson

**The role of imaging in urology - latest advancements in MRI Prostate.**

**7.00pm**

Dinner

**7.30pm**

Presentation and Cases

Mr Gregory Jack

**Keeping up with the latest prostate treatments and terminology**

**8.00pm**

Presentation and Cases

Dr Jos Jayarajan

**Could this be a kidney stone?**

**9.00pm**

Close

Epping  
Private Hospital

**When:** Tuesday 28 May 2019

**Where:** Epping Private Hospital & Medical Centre, Boardroom, Level 1, 230 Cooper Street, Epping 3076

**Parking:** Free parking onsite

**Registration is easy with the following options:**

**By phone:** Liz Connell 0419 415 109

### Your presenters:

#### Mr. Gregory Jack

Mr. Gregory Jack was Director of the UCLA Comprehensive Kidney Stone Centre and Assistant Professor of Urology at UCLA until his return to Melbourne in 2016.

In addition to his subspecialty training in kidney stones and minimally invasive surgery, Greg practices all facets of general Urology including prostate, bladder and penile surgeries as well as renal transplants and living related renal transplant donation.

#### Dr. Jos Jayarajan

Dr. Jos Jayarajan graduated with honours, then undertook two years of extensive subspecialty training in the management of female and male incontinence, voiding dysfunction and pelvic organ prolapse, bladder pain and urethral stricture disease. She utilizes minimally invasive treatments whenever possible. She also practices all aspects of general Urology, including laser stone treatment, BPH, renal and bladder cancer, laparoscopic surgery and performs urodynamic studies.

#### Dr Travers Anderson

Dr Travers Anderson has completed a Fellowship in musculoskeletal imaging. He is currently a serving member of the MIA Victoria Clinical Management Committee.

Dr Anderson is a general radiologist with special interests in MRI, musculoskeletal imaging and oncology imaging. He has considerable experience in image guided musculoskeletal and spinal injections. He performs a broad range of procedures including breast and body biopsies and vascular access.
