# Mental Health Stepped Care Model

## Stakeholder forum for consumers and carers

### Event overview

Eastern Melbourne PHN (EMPHN) invites you to an engagement forum for consumers and carers to provide input into the draft Stepped Care Model for mental health.

Adjunct Professor John Mendoza, who is currently working with EMPHN to refine its Stepped Care Model and transition plan, will present on development of the model.

The forum provides an opportunity to:

- build on previous engagement with consumers and primary care providers on the Stepped Care Model
- explore how the new model can meet consumers' needs

The draft Stepped Care Model is:

- informed by EMPHN stakeholder feedback
- designed to align with the vision of system reform articulated in the Australian Government's [Contributing Lives, Thriving Communities – Review of Mental Health Programmes and Services](#)

A paper will be provided for reading prior to the event.

For more information about the Stepped Care Model, visit our [website](#).
