Mental Health Stepped Care Model

Stakeholder forum for primary health service providers

Event overview

Eastern Melbourne PHN (EMPHN) invites you to an engagement forum for primary health service providers to provide input into the draft Stepped Care Model for mental health.

Adjunct Professor John Mendoza, who is currently working with EMPHN to refine its Stepped Care Model and transition plan, will present on further development of the model.

The forum provides an opportunity to:

- build on previous engagement with primary care providers and consumers on the Stepped Care Model
- explore the outcomes for consumers in the new model
- explore what an appropriate workforce looks like under the new model

The draft Stepped Care Model is:

- informed by EMPHN stakeholder feedback
- designed to align with the vision of system reform articulated in the Australian Government's [Contributing Lives, Thriving Communities – Review of Mental Health Programmes and Services](#)

A paper will be provided for reading prior to the event.

For more information about the Stepped Care Model, visit our [website](#). Information from earlier engagements can be found on our [website](#).

This forum is for Mental Health Nursing Services, Psychological Strategies, General Practitioners and eligible organisations.
