

## My Health Record and electronic referrals for medical specialists

Use a safe and secure method to communicate patient information directly with other healthcare providers. **Using Genie software to demonstrate generic functionality.**

### Event details

Join us to learn the core features of My Health Record including how to effectively view and upload information and learn where to find electronic referrals that have been sent to you. This session is designed to be interactive where participants are encouraged to ask questions and raise any issues. **The session will be helpful for practices using Genie software and also practices not using Genie.**

### Learning outcomes:

**My Health Record-** understand how to:

- save time by accessing overview summary documents including medicines, immunisations, pathology and diagnostic imaging
- find documents relevant to your clinical practice e.g. discharge summaries
- understand how to view the available Medicare information.

### SR specialist and referrals:

- learn where to find electronic referrals that have been sent to you.
- learn how to make a patient record from the electronic referral.
- learn how to send an electronic referral to another specialist using the SR HealthLink SmartForm.
- learn how to include attachments in electronic referrals.
- learn how to check the delivery status of referrals you have sent.

### Guest speakers:

- **Kathy Rainbird**  
Australian Digital Health Agency
- **Eric Dunn**  
SR Specialist and referrals
