

A whole school approach to eating disorders

Webinar

Eastern Melbourne Primary Health Network (EMPHN) and the National Eating Disorders Collaboration (NEDC) invites you to an informative webinar designed to enhance your ability to support young people at risk of developing or diagnosed with an eating disorder.

This 1-hour session, led by Dr Sarah Trobe (National Manager) and Bella Burns (Primary Health Lead) at NEDC, will include valuable insights into the identification, understanding, and management of eating disorders within the school environment. Participants will have the opportunity to participate in a Q & A.

This webinar is designed for clinicians, nurses, and educators.

Learning outcomes:

- Recognise the signs and symptoms of various eating disorders in students.
- Understand the psychological, social, and physical factors contributing to eating disorders.
- Access key information and resources to effectively prevent, identify, and respond to eating disorders in their community.
