

Neurovascular Diseases for the GP

Proudly sponsored by Stryker Neurovascular

?

69-year-old female presents with a right sided sensory symptoms. While in the waiting room she acutely develops dysphasia and dense right hemiplegia...

What next?

?

A 55-year-old male with history of a subarachnoid haemorrhage and previous endovascular coiling of intracranial aneurysm presents with new isolated 3rd nerve palsy...

Does it matter?

The management of ischaemic stroke and intracranial aneurysms is a rapidly evolving field of medicine. Endovascular treatments such as mechanical thrombectomy and aneurysm coiling are becoming mainstay methods of treatment.

This interactive and evidence-based evening will aim to update general practitioners on current treatments provided by our Neurovascular service.

Some of the evenings topics include:

- Headaches. Could this be a subarachnoid haemorrhage?
- Screening protocols, management and follow up for incidental intracranial aneurysms – does size matter?
- Acute stroke. Is this an emergency and who do I refer too?
- Current treatment of carotid stenosis.
- Pearls and pitfalls and what to expect post discharge - Early and long term follow up.
- How to refer to the Austin neurovascular team?
- Dedicated Q/A sessions will be an integral part of the evening.

Speakers:

Dr Mark Brooks, Interventional Neuroradiologist, Interventional Neuroradiology Service
Prof Vincent Thijs, Consultant Neurologist and Head of Austin Stroke Service
Mr Jeremy Russell, Consultant Neurosurgeon with special interest in Neurovascular work
Dr Hamed Asadi, Interventional Neuroradiologist, Interventional Neuroradiology Service
Conveners: Dr Samuel Kruger, IR Fellow and Dr Julian Maingard, Radiology registrar

Cerebral Aneurysms and Acute Stroke: What, When, How, Why? Practical information for GPs

Dinner and drinks proudly sponsored by Stryker Neurovascular

Date: Thu 22th June 2017

Time: 7pm – 9.30pm

Location: Cafe Heide.

Heide Museum of Modern Art

Contact and RSVP: Valentina Di Biase - valentina.dibiase@austin.org.au
