QIM\_9 - Cervical Screening

Number of regular female clients who are aged 25 to 74 years - who have not had a hysterectomy and who have had a cervical screening test within the previous 5 years (HPV).

Use this button to select patients that did not satisfy this Quality Improvement Measure (QIM)

Patients are now selected

**Numerator:**  
RACGP Active and Software Active patients  
Aged from 25 to under 75  
Have not had a hysterectomy  
Not excluded from recalls  
SNOMED codes:  
• 116140005 (Total hysterectomy)  
• 116141005 (Abdominal hysterectomy)  
• 116142003 (Radical hysterectomy)  
• 116143008 (Total abdominal hysterectomy)

**Denominator:**  
RACGP Active and Software Active patients  
Aged from 25 to under 75  
Have not had a hysterectomy  
Not excluded from recalls  
SNOMED codes:  
• 116140005 (Total hysterectomy)  
• 116141005 (Abdominal hysterectomy)  
• 116142003 (Radical hysterectomy)  
• 116143008 (Total abdominal hysterectomy)

Note: If a practice uses a billing/clinical system combination not supported by POLAR we use the equivalent number of progress note entries to calculate RACGP Active (3 or more visits in the last 2 years)

Patient List

Patient ID	Name	Count
Totals		1,500
12	Celia Dalton	1
41	Jaylene Stephens	1
50	Carolina Swanson	1
94	Rebecca Chapman	1
111	Janessa Horne	1
133	Beatrice Marsh	1
173	Iris Morrow	1
269	Cecilia Wade	1
312	Alisha Chang	1
383	Sidney Brooks	1
389	Eve Cannon	1
400	Jordan Medina	1
437	Sariah Hensley	1

Clear the Patient List

**Report Components:**

1 – QIM results: Displayed as patient counts (numerator and denominator, proportion and trend)

2 – QIM navigation: Select Screening measure tab to view performance data for QIM 9

3 – Individual QIM performance tracking: Scaled view of performance against individual measure over time

4 – Selected QIM 9 numerator/denominator calculations description

5 – Patient selector: patients who do not meet numerator criteria but are in the denominator (patients who are due for a cervical screening test)

**Numerator – Number of clients with recorded:**

- RACGP active patients
- Active patients
- Aged from 25 to under 75
- Female
- Have not had a hysterectomy
- Have had a HPV screening test within the past 5 years, from 01/12/2017 onwards

**Denominator - Number of clients with recorded:**

- RACGP active patients
- Active patients
- Aged from 25 to under 75
- Female
- Have not had a hysterectomy
