

Gender

Patients Page

GENDER

Software: Medical Director

Version: 3.16b (3.16.16.10323)

Gender is retrieved from [GENDER_CODE] column on the [CM_PATIENT] table.

This is populated from the Patient Details \ Pt. Details form\ tab.

This cannot be left blank, however "Not Stated" can be selected which is treated as "Not Specified" in POLAR Summary.
