

Wednesday 22 July 2020

POLAR webinar

This event has been broken up into two sessions:

- Orientation to POLAR for new users
- POLAR reports for PM's, PN's, Practice Staff and GP's

As this session is a webinar, attendees will have the opportunity to follow along by using POLAR in their own practice. This will be demonstrated at the beginning of the first session. You are more than welcome to attend both sessions.

Eastern Melbourne Primary Health Network (EMPHN) invites Practice Managers, Practice Nurses, Practice Staff and General Practitioners to an interactive session focusing on the use of POLAR and the benefits and value for their practice.

Session 1 - Orientation to POLAR for new users Wednesday 22 July - 11.00am – 12.00pm

This is suitable for staff that are new to POLAR and will cover the following:

- Split your screen to view the webinar and POLAR simultaneously
- How to login to POLAR
- Adding users changing passwords
- Data Mapping/Help
- Clinic Summary Report followed by Q&A

Learning Outcomes

- Understanding the role of data tools in general practice and data quality, why is it important?

Session 2 - POLAR reports Wednesday 22 July - 12.30pm – 2.00pm

This is suitable for PM's, PN's, Practice Staff and GP's and will cover the following:

- HARP V2 report with Jason Ferriggi – Outcome Health
- Quality Improvement – EMPHN
- Practice Managers perspective with Graham DeJong – East Doncaster Medical Group
- Q & A – Jason Ferriggi – Outcome Health

Learning Outcomes

- Use POLAR to generate patient searches for implementing Quality Improvement Activities (PIP QI).
- Use POLAR to generate patient searches for patients with chronic conditions.
- Use POLAR to increase practice income and improve patient outcomes.
