

Monash Health's Maternity GP Liaison is pleased to invite you to an update on:

PAEDIATRIC AND ADOLESCENT GYNAECOLOGY

Learning Objectives:

- Assess and manage lower abdominal/pelvic pain in children and adolescents.
- Outline an approach to the management of menstrual problems, including heavy and/or painful periods in the adolescent age group
- Describe normal pubertal development and assess when delayed or precocious puberty requires further investigation and management

KEY NOTE SPEAKER: Dr Kiri Chan

- *Head of Paediatric & Adolescent Gynaecology, Monash Children's*
- *Specialist Gynaecologist – Royal Children's Hospital*
