

# Palliative Care Clinical Attachment for GPs

- Medical education opportunity in palliative care delivered by St Vincent's Hospital Melbourne
- Ward Round (with Lead Palliative Care Consultant, Oncologist, Palliative Care Registrar, and/or Resident) provides practical learning to enhance your communication and symptom management skills that can be applied in the end of life care of patients
- 1-2 GPs to attend each round – excellent individual education activity  
Options available (both options may include a family conference)
  - Consultant Ward Round and Multidisciplinary Team meeting - **Tuesday mornings** 8.45am – 12.00pm **or**
  - Consultant Ward Round only - **Thursday mornings** 8.45am – 12.00pm

## Learning outcomes

- Illustrate enhanced communication and symptom management skills
- Implement evidence-based clinical management strategies to ensure safe and effective end of life care
- Apply end of life care for your patients and your community

## Important: To receive CPD Points

- Please complete the Signature List and the Evaluation Form provided and handover to Lee (Admissions Coordinator)

We will send the Certificate of Attendance to your nominated email address and upload your CPD points to RACGP.
