

PERINATAL MENTAL HEALTH

Monash Health's Maternity GP Liaison is pleased to invite GPs, midwives and obstetricians to an update on perinatal mental health disorders. This evening session will provide an overview on perinatal mental health detection, management and how to access the best support for perinatal patients.

Learning Objectives:

- assess mental health in the perinatal period
- discuss psychosocial, psychological and pharmaceutical therapy options
- identify when and how to refer to Monash Health mental health services
- source community support for perinatal patients (including options under Medicare)

KEY NOTE SPEAKERS INCLUDE:

- **Dr Celeste Hoopmann**
Perinatal Psychiatrist
Monash Health Perinatal & Infant Mental Health Initiative
- **Dr Jacqui Boyle**
Head, Indigenous and Refugee Health
Consultant Obstetrician, Dandenong Hospital
- **Dr Nicole Highet**
Director, Centre for Perinatal Excellence (COPE)

WHEN

Thursday 27th April, 2017

WHERE
