

Preventative Health Initiative (PHI) for Mental Health Consumers – Program Showcase

Preventative health support for people experiencing mental health issues, delivered by Neami National across eastern and north-eastern Melbourne.

Event details

We invite you to attend this showcase webinar of the PHI program.

The webinar will provide an overview of the consultation process and key findings, as well as demonstrate how input from our stakeholder engagement was used to shape the service response.

Neami National will also present on the PHI service model and highlight ways in which this program will deliver tailored support and work alongside other service providers to address the preventative health needs of consumers with mental health issues.

Who can attend

This is a free webinar for anyone who is interested in how the PHI program was developed and will be delivered.
