# Psychiatric consultation and advice service – a service redesign workshop

Specialist mental health and alcohol & other drugs advice and assessment can be difficult to access for GPs and Primary Health Care Providers. Help us review and improve our psychiatric consultation and advice service.

EMPHN, together with the Improvement Foundation invites interested people to attend a workshop which will help redesign a psychiatric consultation and advice service to be commissioned by EMPHN to meet the needs of the catchment. The workshop will review current services, identify any gaps or barriers and focus on identifying opportunities to improve the services being delivered.

## Event overview:

1. Presentation/overview of the current EMPHN-funded, secondary psychiatric consultation and advice service delivered by Outcome Health and Conduit Health:
  - Outcome Health delivers a Mental Health Nurse Practitioner model
  - Conduit Health delivers a Consultant Psychiatrist led model.
2. Review any other service models available.
3. Identify current service gaps or barriers.
4. Workshop ideas and innovative elements to improve the service. What could the future state look like?.

Facilitated by: [improvement foundation](#)
