

Is your hospital or day procedure service preparing to accredit against the NSQHS Standards (second edition)?

Would your team like to gain a better understanding of the NSQHS Standards (second edition) as well as undertake practical learnings and find out about implementation initiatives?

If you answer **YES** to any of these, QIP invites you to an NSQHS Standards (second edition) Workshop in late July in Ballarat, Melbourne and Bendigo.

NSQHS Standards (second edition) workshop

29 July - Ballarat
30 July - Melbourne East
31 July - Bendigo

QIP is committed to supporting hospitals and day procedure services achieve accreditation against the NSQHS Standards (second edition).

QIP's team of NSQHS Standards experts are delivering a full-day, interactive NSQHS Standards Training Workshops in Ballarat (29 July), Melbourne East (30 July), and Bendigo (31 July) to assist hospitals and day procedure services on their accreditation journey.

Focused on Standard 1 – Clinical Governance Standard, Standard 2 – Partnering with Consumers and Standard 5 – Comprehensive Care of the NSQHS Standards (second edition), the QIP team will outline how these standards set overarching examples for the remaining five NSQHS Standards to support interpretation and application. Practical examples, case studies, tools and resources will be provided to support a number of implementation initiatives and take-away learnings.

Attendees – whether Clinical or Risk, Quality, Governance or Safety Managers, will gain an insight into how the NSQHS Standards integrate and work together, evidence requirements, as well as tools and frameworks to support implementation and quality improvement.

The full day workshop agenda is available on the QIP website – www.qip.com.au/NSQHSStandardsWorkshop with a registration form enclosed for your convenience. Places are strictly limited so secure your attendance today.
