9.00am - 1.30pm
(Registration from 8.30am)

This activity is funded by the Victoria Government

Module 1

Online training

QI&CPD
2017-19 Accredited Activity
Category 2

4 points

With the implementation of SafeScript Victorian Practitioners can now more readily identify patients receiving opioids and other high-risk medicines in high doses or combinations that may cause harm.

MATOD Module 1 focuses on evidence-based practice and consultation approaches that help prevent, identify and manage problems arising from opioid prescribing.

This activity is an interactive two hour session presented by MATOD specialist GPs and is accredited for 4 Category 2 RACGP QI&CPD points for the 2017-19 triennium.

Module 2

QI&CPD
2017-19 Accredited Activity
Category 1

40 points

Upon completing Module 1 Practitioners can register for Module 2, which enables Victorian Practitioners to prescribe methadone or Suboxone[®] to patients with opioid use disorder, as part of their treatment planning.

Eligibility criteria to attend this training:

- Completion of online Module 1
- Treating patients in Victoria
- Registered with AHPRA prior to registering for this session.

Module 2 (Part A)

Online training

Module 2 is now delivered via a blended approach. Once completed Module 1, participants will complete two hours of education online prior to attending the face-to-face workshop.

In the online education component participants will learn about opioid use disorder and the pharmacology of buprenorphine and methadone.

Module 2 (Part B)

Face to face workshop

This four-hour interactive session of case based discussion is presented by MATOD specialist GPs.

Learning outcomes:

1. Outline the potential benefits and risks associated with opioid prescribing.
2. Recognise, prevent and respond to problematic pharmaceutical opioid use.
3. Identify the legal issues regarding the prescribing of buprenorphine and methadone.
4. Implement safe and effective opioid and methadone prescribing as part of a broader pain management plan.
5. Prescribe safely and effectively buprenorphine and/or methadone for opioid dependence.

Successful completion of Module 2 part A and part B is accredited for 40 Category 1 QI&CPD points for the 2017-19 triennium.
