# InReach Education Session

## Managing acutely unwell residential aged care patients

### For GPs and Medical Deputising Services – locum doctors

This 'InReach Session' will support Medical Deputising Services locum doctors and GPs in managing their acutely unwell residential aged care patients. This collaboration between Austin, Eastern and Northern Health's InReach services is supported and funded by Eastern Melbourne PHN.

#### Event Overview

##### Presented by:

**Dr Paul Yates**, Consultant Geriatrician and Clinical Lead  
Residential Outreach Service, Austin Health

**Dr Andrea Bee**, Consultant Geriatrician and Clinical Lead  
Eastern Residential InReach Service, Eastern Health

**Ms Maureen Goodwin**, HARP Respiratory CNC, Northern  
Health

**Dr Nigel Berry**, General Practitioner, Nillumbik Medical  
Centre

#### Topics covered

##### Health Pathways

- HealthPathways is a web-based portal with relevant and evidence-based information on the assessment and management of common clinical conditions including referral guidance

##### The deteriorating/dying resident

- Identify options for facility-based management of residents when deteriorating health leads to need for acute care

##### Falls management

- Implement a systematic approach to falls prevention by focusing on polypharmacy and falls minimisation strategies

##### Respiratory management

- Respiratory management and practical tips for managing dyspnea
