Recalls and Reminders in General Practice

For Practice Staff

Implementing an effective recall and reminder system for the follow up of tests, test results, and referrals in general practice is essential for the provision of safe and high quality patient care. This webinar will outline the steps practice should follow when designing policies and procedures to ensure a systematic and consistent approach to follow-up care.

Presenter

Sue Keane
GP Engagement Officer, Eastern Melbourne PHN

Learning outcomes

- Describe the components of a comprehensive recall and reminder system in general practice
- Define risk management strategies for recall and reminders
- Identify how the RACGP 5th edition standards for general practice will apply to recalls and reminders
- Recognise the role of technology in a practice's recall system
