

3 October 2018

Rescue, withdrawal and treatment

Essential knowledge for managing substance misuse

For GPs, pharmacists, practice teams, AOD workers and allied health professionals

Stay up-to-date with the latest drug and alcohol interventions, including naloxone, Turning Point Alcohol and Drug Withdrawal Guidelines (2018), and the latest research on methamphetamine-associated psychosis

Presenters

Dr Matthew Frei

Addiction Medicine Specialist, Clinical Director, Turning Point Treatment Services, Eastern Health

Dr Shalini Arunogiri

Addiction Psychiatrist, Turning Point Treatment Services, Eastern Health

Christine Tindal

Mobile Drug Safety Worker, Carrington Health

Learning Outcomes

- Implement a practice-wide approach to ensure that patients at high risk of opioid overdose have access to and education about naloxone injection
- Apply best practice approaches for the management of withdrawal from prescription opioids and benzodiazepines.
- Explain the risk factors and treatment options for patients presenting with methamphetamine-induced psychosis.
